

# Mechanical Services

## SPECIFICATIONS:

1. Compressed air pressure is approximately 110 PSI and available in most spaces by ordering from the Scotiabank Convention Centre. Please use the SCCN's Mechanical Order Form to order this service.
2. The Scotiabank Convention Centre does have floor ports equipped with water and drain.
3. Air lines are distributed from floor ports.
4. Only 1/2in. (Half Inch) air lines can be run under carpet in booths.
5. If you are in an Island booth, please indicate a main air drop location on the SCCN's Booth Layout Form and submit with your Mechanical Order Form. The SCCN will distribute any under carpet requirements from that location.
6. Water pressure is approximately 50 PSI and available anywhere in the facility by ordering from the SCCN's Mechanical Order Form.
7. If you require hot water for your booth, an electric hot water tank will need to be installed by the SCCN within your booth space. Please plan accordingly and notify us in the Special Requirements space on the bottom of the SCCN Mechanical Order Form or call us for assistance: 905-357-6222.
8. Sanitary floor drains are located in various locations within the facility. Please check with the Scotiabank Convention Centre (905-357-6222) as soon as possible if you require a drain connection
9. Prices subject to change without notification.
