Electrical Services

SPECIFICATIONS:

1. The Niagara Falls Convention Centre has 120VAC/208VAC/600VAC Single and Three Phase 60HZ Power Available. Please check with your NFCC technical coordinator to verify your equipment compatibility.
2. The Niagara Falls Convention Centre can provide other voltage and amperage requirements with the use of a transformer. Transformers must be placed within your booth space, so please allow for the transformer when you do your space plan/layout. Approximate size can be provided by your NFCC technical coordinator (see below for contact info).
3. The Niagara Falls Convention Centre shall require the use of transformers for 208 Volt Single and Three Phase power connections greater than 30 Amps.
4. The Niagara Falls Convention Centre does not require the use of transformers for 600 Volt Single and Three Phase power connections.
5. If you have an Island Booth, please indicate a main power drop location on the Booth Layout Form and submit it with your Electrical Order Form. The NFCC will distribute under carpet outlets from that location.

REGULATIONS:

PLEASE NOTE: Ontario's Electrical Safety Authority (ESA) requires that all equipment be electrically approved for use by a recognized certification agency acceptable to the Electrical Safety Authority before it can be displayed and/or powered during an event.

If electrical certification is required, exhibitors are responsible to obtain 'Permission to Show/Energize' from the Electrical Safety Authority (ESA) directly. The Niagara Falls Convention Centre cannot be responsible for this permission. To obtain the ESA 'Permission to Show/Energize', please visit:

https://www.esasafe.com/assets/files/esasafe/pdf/Electrical_Product_Safety/Application_for_Permission_to_Show_Energize.pdf to apply for permission/approval from the ESA.

Apply as soon as possible to avoid complications!

HELPFUL HINTS:

1. Only Niagara Falls Convention Centre electricians or authorized electrical contractors can connect and disconnect power to equipment. Borrowing power from an adjoining booth is **NOT** permitted.
2. The Niagara Falls Convention Centre reserves the right to inspect any and all customer/client electrical connections, equipment and service requirements.
3. Check the equipment nameplate for all electrical specifications.
4. Contact your NFCC technical coordinator for all 24-hour power requirements (ex: refrigerators and freezers etc.).
5. All equipment must have a 3-wire grounded cord installed prior to energizing.
6. A Ground Fault Circuit Interrupter (GFI) shall be installed to protect all 120 Volt electrical equipment within 10 feet of a water and/or liquid source.
